G. F. Lipsitt, Esq.,

182 Bloor Street East,

Toronto.

Dear Mr. Lipsitt:

On Friday night at the Faculty of Medicine your case was brought forward, and you will probably have heard the decision of the Faculty before this. When the recommendation of the Committee was brought in I stated your case as clearly as I could and asked them to be as generous to you as they thought would be advisable for your own future. However, they were of opinion that to ask of you less than they have done would be to put upon you a burden you could not carry and would handicap you in the future.

Yours sincerely,

President.
